

# Marinetrans protocol

## Dangerous Goods handling

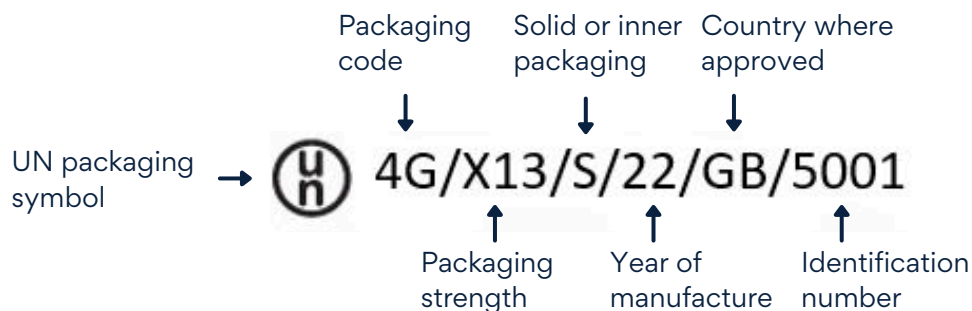

Dangerous Goods (DG) are substances that can harm people, animals, or nature if not properly handled. While items like paint or petrol are easily identified, DG can also be hidden in other products. All DG shipments must be **clearly labeled**, provided with a **Safety Data Sheet\***, and **list hazardous substances in the shipping documents**.

*\*Please provide an SDS for all substances that are harmful to people or the environment.*

## Our requirements

### UN package specification

### Overpack

When using an overpack, all UN numbers and the corresponding hazard labels must be visible on the outside, along with the label: “OVERPACK”.

# Hazard labels
